

Melika Salihbeg Bosnawi

THE WEST IS/N'T DISNEYLAND

Bismi`Illâh

Take care, my Afghan & other Muslim sisters! After Her men, here there comes - She! She will rescue you from your loss & despair! She will comfort you with her liberties!

For, She is coming to your country to strip you almost naked, then She will strip away your (backward) Muslim identity, your (terrorist) faith, your (outdated) believer's dignity, your (glorious, by them ever deaden) history, your culture (continuously turned to ruins), your (God-defined) ethics, your (whole) family..., while following Her men, who stripped away your husband and his love for you!

Take care, sister! She will strip you down to your naked body and soul emptiness!

Then again....

Take care, sister! She is coming to your homeland, to replace their politics & men made war-hell, with their politics & women designed peace-paradise... Alas! Alas!

Take care, sister! Because they will trade your inner calm and happiness for their hidden anxiety and despair, your natural tendency to create for their odd eagerness to annihilate, your true faith with their fairy tales..., your Muslim land with their Disneyland!

Take care, sister! She is occupying not only your state, your birthplace, your house, but also your bed...!

Take care, sister! She is advancing! She is a Feminist!

Careful, sister! She has edgily equipped her head with politically edged womens' issues!

Beware, sister! She will train you and rescue from you yourself.

Take care, sister! She will uncover you from you and cover you up with her, while teaching you what human rights do really mean...

Beware, my Muslim sister! She is entering your bed-sheets... She will ease you with herself, then She will lead you to the Altar, then She will take you along to the Adoption Centre, and then you will together become parents of your own, and your co-nationalists' war-orphaned kids...

Take care, sister! She loses her sense of humor if resisted in her promoting Western values. Because, She alone knows well that:

THEIRS /NOT/ TO ERECT DISNEYLAND
