BARKING BOBBY - DOG

One (mine, and at that time just) three-year kid, with drawing and naming every detail of his "Barking Bobby-dog" (from above: its tongue, its mouth, the barking) taught his big mom what truly makes one being, namely - its articulation!

His mother's will:

Soon after this drawing of a little genie, ex-Yu Communist political & police criminals (heartedly followed by the usurpers of the holy "Islamic revolution" in Iran and worldwide), then by those among relatives, co-citizens, colleagues, fellow-believers... hypocrites and cowards (what equalized them in effect with the previous) killed - by harsh hand, or courts, or prisons, or beatings, or casting out . . . (or silence, or intrigue, or indifference . . . or approval)
- this innocent kid's soul.

May (my little son) rest in peace, and his killers (all local, followed by those from up) are in eternal fire!
Amen!

PostScript:

As for those who even today yearn for "old, happy (communist) times", may they be associated to the above in the Fire, already blazing in their ever more narrowed chest!
Amen! Amen!
